

STATE OF THE CITY DASHBOARDS

USER GUIDE

There are four dashboards in the State of the City series that are split across:

- People
- Economy
- Environment
- Housing

The State of the City data has examined a series of datasets including from ABS and id.profile as well as other sources, to understand trends in Hobart across a range of themes including; population, health and wellbeing, the economy, the environment, and housing.

The data presented is for general information purposes only.

The dashboards can be accessed at hobartcity.com.au/state-of-the-city and are best viewed on desktop device.

This guide has have been developed to explain how to use the dashboards.

NAVIGATING THE DASHBOARDS

All of the dashboards have some useful, at a glance, statistics on the left-hand side.

Click on the large ? to find out sources and links to the data.

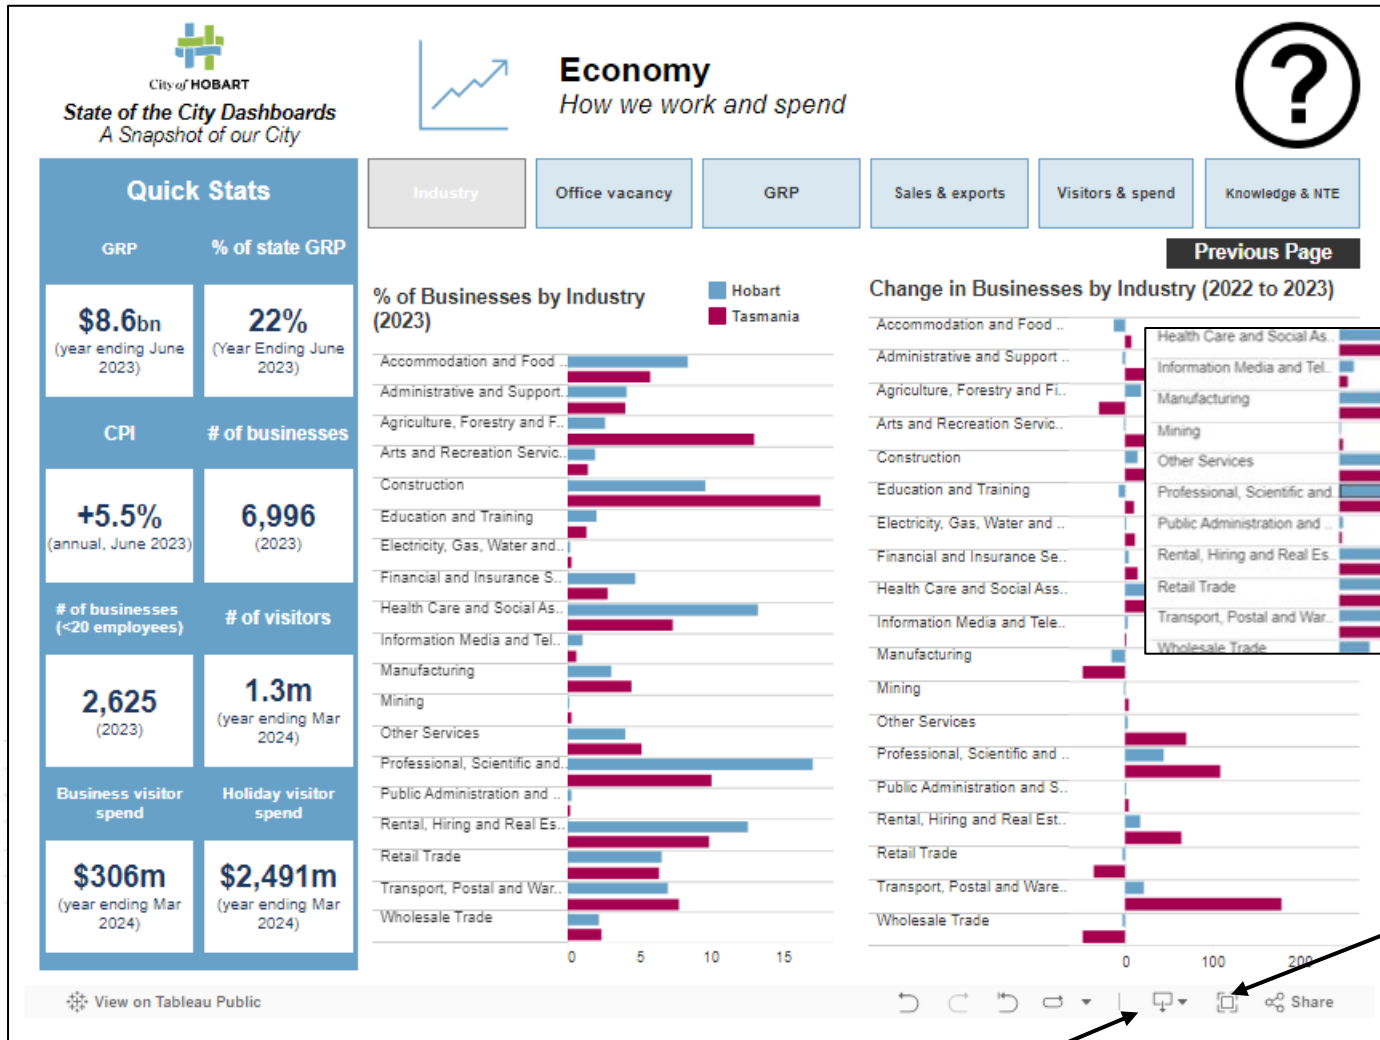

There are themes across the top of each dashboard. Click on the required theme to move through the dashboard.

If there is more than one page in a theme there will be a black next page button on the right-hand side.

To move back a page click on the previous page button.

BASIC FUNCTIONALITY
